

SOFIA NURRASYIDA

SOFIA IS A PLANNER AND GIS SPECIALIST WITH LAND INSIGHTS. SHE BRINGS A MULTI-DISCIPLINARY BACKGROUND IN ARCHITECTURE AND URBAN DESIGN, WITH RAPIDLY DEVELOPING EXPERTISE IN DEVELOPMENT ASSESSMENT, GIS MAPPING, AND PLANNING STRATEGY SUPPORT ACROSS REGIONAL WA.

PROFESSIONAL QUALIFICATIONS

FEB 2024 - NOV 2025

University of Western Australia
Perth, WA
Master of Urban Design

AUG 2019 - AUG 2023

Gadjah Mada University
Yogyakarta, Indonesia
Bachelor of Architecture

PROFESSIONAL EXPERIENCE

FEBRUARY 2026 - ONWARDS

Sofia joined Land Insights in February 2026 as a Planner and GIS / mapping specialist. Since joining, she has contributed to a diverse range of planning support and spatial analysis work across regional WA. Sofia has demonstrated a strong capacity to take on new project types quickly and deliver quality outputs across development assessment, local planning strategy support, and GIS mapping.

Sofia provides ongoing development assessment support to the Shire of Esperance and previously Dardanup, assisting with the review and assessment of development applications within the applicable local planning framework. This work has given Sofia practical, hands-on exposure to the development assessment process across two contrasting regional local governments.

Sofia has undertaken a detailed review of submissions received in relation to the Shire of Donnybrook-Balingup local planning strategy. This included

analysing submission content and developing proposed modifications in response, requiring close engagement with the planning framework and the scheme review process.

Sofia's GIS work spans several significant projects. She has developed the townsite masterplan mapping for Wiluna, finalised the spatial mapping component of the Shire of Derby/West Kimberley Local Planning Strategy, and prepared mapping for the Augusta-Margaret River Coastal Hazard Risk Management and Adaptation Plan (CHRMAP). This work demonstrates Sofia's ability to apply GIS and presentation skills across varied planning contexts and produce clear, publication-ready outputs.

MARCH 2025 - FEBRUARY 2026

Sofia supported planning and environmental projects through site analysis, policy review, spatial mapping and report preparation. Her work involved reviewing planning and environmental context, assisting with site investigations, preparing supporting material for reports and contributing to client-facing deliverables. She also assisted with mapping, visual analysis and background research to support planning, environmental and urban development projects. This included interpreting site constraints, preparing diagrams and contributing to written material used to inform project recommendations.

OTHER SKILLS

- Proficient in Autocad, SketchUp, Rhino and Lumion
- Proficient in Adobe Creative Suite, including Illustrator, InDesign and Photoshop
- Proficient in ArcGIS Pro, QGIS and spatial mapping
